Come and visit our showroom to see the range of saunas and steam rooms with all the different equipment options on display. We have a working sauna and steam room for those interested seeing how our products function.

Company Highlights

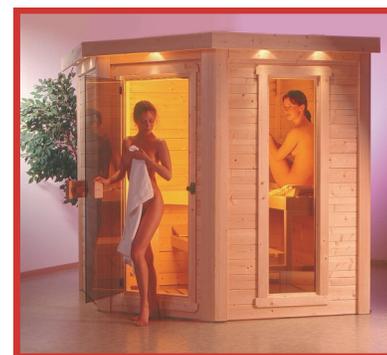

Finnleo Sauna & Steam is a family owned business with over 45 years of experience in the sauna industry in both Australia and Finland. We have a passion for building saunas and we are all sauna enthusiasts regularly using our own home saunas on a weekly basis throughout the year.

We are registered commercial builders and a member of the Master Builders Association, holding all the relevant insurances and liability policies required for both yours and our protection.

We are a Gold Medal performer which was capped when awarded the prestigious contract for the Sydney 2000 Olympic Games. Finnleo was the selected company to supply saunas into the athlete's village, training centres and competition sites as well as providing 24 hour support and maintenance. After the games finished we dismantled all the saunas as they were sold to home owners around Australia to have special unique piece of Olympic memorabilia.

Although on a much smaller scale, Finnleo was also awarded the contract to supply the saunas to the athlete's village for the Melbourne 2006 Commonwealth Games.

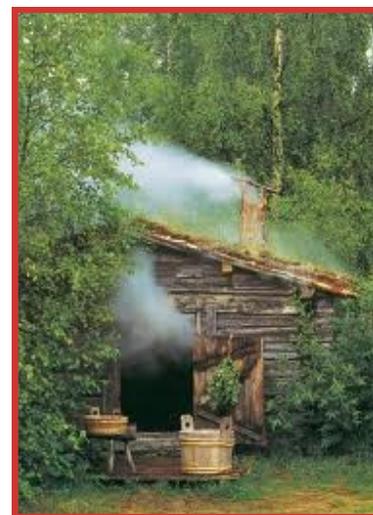

Finnleo Sauna & Steam is the Australian agent for Helo Ltd, the world's largest manufacturer in the sauna industry. The Helo brand is the number one choice in Europe for any sauna and steam installation. Helo manufacture sauna and steam equipment in Finland, where they have a history of sauna manufacturing dating back to 1919.

Here at Finnleo Saunas Australia we pride ourselves on the quality of our workmanship.

Our techniques and building methods for saunas we learnt in Finland, the birthplace of the sauna. With over 45 years of experience in

the sauna industry you rely on Finnleo to build you a truly "Traditional Finnish Sauna".

Sauna Benefits

- Relieves Stress
- Skin cleansing
- Mind & body relaxation
- Improved blood circulation
- Induces a deeper sleep
- Flushes toxins from the body
- Soothes aches and pains

A sauna not only feels good, it's good for you !!

Our services include:

- Design / Consultation
- Construction
- Equipment & Accessory Sales
- Service / Maintenance
- Australia Wide Service

We specialise in custom built saunas and steam rooms for any commercial or home installation. Whether your sauna or steam room is to be located indoor or outdoor we will work with you to come up with a suitable design and layout to suit your requirements.

Finnleo import two different premium sauna timbers from Finland giving our clients a wide variety of choice for your sauna interior.

Want to build your own sauna ?

Finnleo can supply you with all the relevant sauna specific material and equipment. Give us details about your desired room size and we will provide you with the best suitable layout, building guidelines to follow and even provide telephone support should you get really confused and want to speak to an experienced sauna builder. This help from the start will ensure you build a good functioning sauna which you will enjoy for many years to come.

Helo, the world's oldest and largest manufacturer assemble all the equipment in Finland, so you can be sure you are buying a quality product from a company with a commitment to design, innovation and function to fit your lifestyle now and into the future. The heart of any sauna is the heater. Helo sauna heaters have the maximum amount of rocks in contact with the heating elements, the result is a special comfort of soft steam and even heat rising from the rocks. With a Helo sauna heater you will experience that feeling of aaahhhhh.....
